About the Course
This course is designed to address the wide range of gastroenterological conditions commonly seen in primary care. Attendees will receive clinical updates and useful management strategies for commonly seen conditions. Course content will be clinically oriented, informal, and interactive, with illustrative case presentations and opportunities for questions and comments.

Target Audience
Primary Care physicians, advanced practice nurses, physician assistants, and members of the health care team who seek to advance their knowledge in this area.

Course Objectives
At the end of the conference, attendees will be able to:

• Apply new approaches to abnormal LFT and obstructive jaundice.
• Implement tools and techniques to effectively manage patients with irritable bowel syndrome.
• Diagnose and treat anemia.
• Apply current information on evaluation and management of hepatitis C in daily practice.
• Summarize current concepts of pathogenesis, diagnostic tests, and treatments for inflammatory bowel disease.
• Discuss treatment options for patients with gastroesophageal reflux disease (GERD) and use of proton pump inhibitors.
• Discuss treatment options for celiac sprue.
• Articulate current guidelines for colorectal cancer screening.

Accreditation and Disclosure
Kaiser Foundation Health Plan of Washington is accredited by the Washington State Medical Association to provide continuing medical education for physicians.
